As per the Completion Appellate Tribunal (India) Order dated 17th January 2014:

1. Accreditation business is international and there are already several international bodies operating in India;
2. Accreditation Bodies are not required to be covered under any network of law and are free to grant certificates of accreditation to the laboratories in India, this also means that ACCAB does not require any permission, sanction or approval of any ministry / government department / agency to operate as an independent accreditation body;
3. All the government notifications were prior to the business set up by ACCAB, and even in these notifications it is suggested that any other accreditation body comparable were acceptable to the government companies;
4. No Accreditation Body enjoy the monopolistic position as accreditation bodies in India as they have no objection or have not indulged in activity to keep any competitors out of the market. And any-body including ACCAB would have an authority to act as the accrediting body provided such body has the necessary infrastructure.

ACCAB's Application for Consideration by Your Good Offices:

In the light of the foregoing, Accreditation Commission for Conformity Assessment Bodies (ACCAB) hereby presents its application to your good offices, seeking recognition, as an Accreditation Services Provider for the Management System Certification Bodies.

The following salient facts, features and the criteria in support of our application are placed for your kind perusal:

- In keeping with the tone and tenor of the Competition (Amending) Act, 2007 which discourages any dominant position to any entity including any government backed or sponsored agency in terms of providing goods and services as against other competitors which will enable a level playing field for the NABCB and the ACCAB.
- The recognition to the ACCAB shall initiate the additional capacity building, shall create Public Private Partnership and shall create multiple options for an Indian industry, trade and commerce in the field of the Voluntary Certification Bodies Accreditation Services.

Alternately if the name of the accreditation body is required to be mentioned then all the internationally recognized accreditation bodies need to be listed in the guidelines. As of now it could be written as Management System Certification Bodies' Accreditation as per ISO 17021 (by NABCB / ACCAB).
